

MIRT

LONDON

**PRECISION
AT EVERY STEP**

Company Profile

MIRT is a multi-disciplinary construction company based in London and providing construction services across the UK

The company was established in 2018 as a carpentry and joinery installation sub-contractor and since its inception MIRT has grown and expanded into a number of different specialist markets.

The company is run by a highly experienced leadership team, enabling MIRT to deliver expert services across a wide range of projects within Residential, Commercial, Hospitality, F&B and other sectors.

Process

With strong foundations in place, MIRT has expanded into the main contracting market

We now work on both:

01.

**Specialist
Fit Out
Projects**

02.

**New Built
Construction
Projects**

Our Integrated Approach Covers

**Feasibility
Cost Planning
Compliance**

**Design &
Procurement**

**Project
Delivery**

**Handover
Aftercare**

This enables us to manage projects efficiently from early stages through to completion, ensuring control over quality, programme, and cost.

Structure & Services

Three divisions one unified
standard

Our services are delivered through three interconnected divisions.

Each division operates with a clear focus while working seamlessly together, allowing us to deliver flexible and scalable solutions across a wide range of project types.

This structure ensures that every project benefits from specialised expertise while maintaining a consistent level of quality and precision.

MIRT
FIT OUT

By selecting MIRT fit out for your project you are guaranteeing your dream outcome

With our origins engrained in the successful delivery of high-quality carpentry and joinery projects, it was inevitable that this would evolve, and so we created MIRT Fit Out.

At MIRT We believe that when we accept a fit-out project, we have an obligation to create inspiring environments that also provide functionality, operational ease for building managers and key performance requirements for the building owners.

With a wealth of experience leading this division there is very little in this sector that our team has not seen or overcome. Every project is an opportunity for us to provide the utmost level of service to our client and we will stop at nothing to ensure delivery.

MIRT
CONSTRUCTION

Along the way MIRT have collaborated with a number of partners to produce high quality residential led developments. This has resulted in a requirement to create a division specifically tailored to delivery of construction-based schemes to the highest quality, to the required programme and for the correct value.

MIRT Constructions specific management team are carefully selected based on experience in delivering residential and mixed-use developments in a Main Contracting Capacity.

Experts in Design & Build, the team is capable of taking a clients brief from approval of planning and developing the design to the point of commencement on site.

At this point the team start to show their proficiency in the procurement, management and delivery of developments of all sizes to the point where the keys are handed over to the end user.

From planning approval to handover, managing design, procurement, and full project delivery

Construction Capabilities

While the construction division mainly services our development partners, it also supports the fit-out division when complex enabling, alteration, and construction works are required.

MIRT
INSTALLATION

Specialists in joinery installation delivering
bespoke and high-volume projects across the UK

The founding department of our organisation MIRT Install was originally formed to provide a delivery mechanism for the installation of fitted Joinery products fabricated by our Sister Company VPK Ltd. MIRT have delivered both bespoke and high-volume schemes across the UK on behalf of VPK Ltd.

Working for some of the biggest Developers and Main Contractors in the UK projects range from Entrance Lobby and Amenity Spaces to 700-unit residential apartments projects.

MIRT Install is also responsible creating some of the prime living, working and social spaces in the country and also provides a vital resource for our fit out and construction divisions.

Manufacturing Partnership

As our partner company we work alongside VPK Ltd To ensure we are delivering trusted and compliant manufactured products to our clients

VPK have been in business since 2007 and have grown into one of the largest manufacturers of bespoke and volume furniture in the UK.

With Factories in Hertfordshire, Essex, Stanstead and Ukraine, VPK have the capability to deliver multiple schemes at any one time and can accommodate anything from small bespoke orders up to high volume residential and student accommodation schemes.

Stronger together. Built on collaboration.

VPK

Partnership with VPK Ltd

We work closely with VPK Ltd to deliver high-quality, compliant manufactured products across all projects

We understand that one of the most important aspects of any specialist fit-out is the elements the client ultimately interacts with.

That is why we have prioritised our partnership with VPK, ensuring this part of every project receives the highest level of attention and quality.

Architectural Partnership

Integrated architectural, urban and fit out design expertise across residential and commercial projects and developments

Through our partnership with Bree Day Architects, we have harnessed over 25 years of practice experience in house. Established in 1988 Bree Day Architects bring decades of architectural, urban design and fit out design experience to our list of capabilities.

The collaboration strengthens our ability to deliver high quality design to our new build and fit out divisions and creates a level of commitment and flexibility to our clients that we believe is invaluable.

Combining strong design and technical knowledge with MIRT's management and delivery capabilities only increases our ability to deliver high quality, efficient and visually beautiful projects.

Project Expertise

Housing and Mixed Use Construction Projects

With extensive experience in housing and mixed-use projects Bree Day Architects are capable of taking schemes from planning through to providing comprehensive project design information for major D&B contractor clients.

Bree Day Architects have expertise in delivering construction projects of all shapes and sizes.

With Bree Day Architects on board, we are fully capable and committed to meeting the challenges faced by the industry, including sustainability requirements for projects imposed by Planning Conditions, Building Regulations, along with the requirements imposed under the new building safety regulations.

Project Expertise

Residential and Commercial Fit Out Projects

Bree Day Architects have vast experience in delivering design for complex and high profile interiors project types including:

- Residential
- Commercial Office
- Retails Fit Out
- Hospitality
- Wellness & Healthcare

Bree Day Architects bring a higher level of design quality than would normally be found in house at a specialist fit out contractor. This empowers us to deliver projects that fully align with our clients needs, wants and expectations.

Industry Standards & Compliance

We are certified to industry standards and fully compliant with trusted schemes, ensuring consistent quality, safety, and reliability

We are committed to meeting the highest industry standards across every project we deliver. Our certifications reflect a consistent focus on quality, safety, and compliance at every stage.

By working with trusted schemes and recognised bodies, we ensure reliability and accountability in everything we do. This approach allows us to deliver with confidence, precision, and long-term value for our clients.
